

MODULE 2 · CHOOSING AI FOR YOUR LAW FIRM

Workflow Shortlist Worksheet

Score every candidate on the four traits. Strike anything in the “not first” list. Keep three — each with a named reviewer.

1 · Candidates

Any work done more than ~20 times a month that involves reading or producing a document. Score 1–5.

Workflow	Volume	Repeatable	Document-heavy	Reviewer exists	Total

2 · Strike list — do not start here

- ☐ Autonomous legal advice reaching a client without a qualified reviewer
- ☐ Final filings to a court, regulator or tax authority
- ☐ Binding client recommendations, credit or eligibility decisions
- ☐ Anything that can send an email, move money or change a system without approval

Watch this one: where fairness, transparency or adverse-action obligations already govern a decision, using a model does not create an exemption.

3 · Your three — with the reviewer named

If you cannot name the reviewer, the workflow is not ready. That blank is the finding.

#	Workflow	Accountable reviewer	What “done” looks like
